**Testimonials:**

*My child is more comfortable with himself and in his body, more aware of what's going on around him. His academic learning is developing more easily and quickly. His speech is improving as are his relationships. - C.J.*

*Our family's life was constantly centered on the challenges that Autism brings. Marianne showed us a gentler way to live with Autism on a daily basis as well as putting a program in place to support our son to reach milestones we never dreamed possible! - W. E*

*Marianne is a gift to the world. I am a better person because our paths have crossed and I don't know anyone who would not agree with me on that. Her knowledge of the way the brain works is only rivaled by her passion of the heart. She cares deeply about her clients and truly has their best interests in mind as she guides them on their journey. Her approach is gentle and she provides a very safe place to heal and grow. - T. F.*
